

Pgr15l-Flox

□□□	C57BL/6Smoc- <i>Pgr15l</i> ^{em1(flox)Smoc}
□□□□	TBD
□□ □□	Developing

□□□ □□

□□ □□

These mice carry loxP sites flanking target exons of *Pgr15l* gene. When crossed with a Cre recombinase-expressing strain, this strain is useful in eliminating tissue-specific conditional expression of *Pgr15l* gene.

*Literature published using this strain should indicate: *Pgr15l*-Flox mice (Cat. NO. TBD) were purchased from Shanghai Model Organisms Center, Inc..
