

Mif-Flox

Strain	C57BL/6Smoc- <i>Mif</i> ^{Am1(flox)Smoc}
Strain ID	NM-CKO-226059
Strain Description	Sperm cryopreservation

Gene Symbol

Gene Symbol Mif	Synonyms	GIF; Glif
	NCBI ID	17319
	MGI ID	96982
	Ensembl ID	ENSMUSG00000033307
	Human Ortholog	MIF

Strain Description

These mice carry loxP sites flanking exon 1-3 of Mif gene. When crossed with a Cre recombinase-expressing strain, this strain is useful in eliminating tissue-specific conditional expression of Mif gene.

*Literature published using this strain should indicate: Mif-Flox mice (Cat. NO. NM-CKO-226059) were purchased from Shanghai Model Organisms Center, Inc..
