

Capn7-Flox

Strain	C57BL/6Smoc- <i>Capn7</i> ^{em1(flox)Smoc}
Genotype	TBD
Availability	Developing

Gene Symbol

Gene Symbol Capn7	Synonyms	PalBH, AU022319
	NCBI ID	12339
	MGI ID	1338030
	Ensembl ID	ENSMUSG00000021893
	Human Ortholog	CAPN7

Strain Description

These mice carry loxP sites flanking target exons of Capn7 gene. When crossed with a Cre recombinase-expressing strain, this strain is useful in eliminating tissue-specific conditional expression of Capn7 gene.

*Literature published using this strain should indicate: Capn7-Flox mice (Cat. NO. TBD) were purchased from Shanghai Model Organisms Center, Inc..
