

A4gnt-Flox

Strain	C57BL/6Smoc- <i>A4gnt</i> ^{em1(flox)Smoc}
Strain ID	NM-CKO-253848
Strain Status	Repository Live

Gene Symbol

Gene Symbol A4gnt	Synonyms	Gm798; AV080780; Alpha4gnt
	NCBI ID	333424
	MGI ID	2143261
	Ensembl ID	ENSMUSG00000037953
	Human Ortholog	A4GNT

Strain Description

These mice carry loxP sites flanking exon 1-2 of A4gnt gene. When crossed with a Cre recombinase-expressing strain, this strain is useful in eliminating tissue-specific conditional expression of A4gnt gene.

*Literature published using this strain should indicate: A4gnt-Flox mice (Cat. NO. NM-CKO-253848) were purchased from Shanghai Model Organisms Center, Inc..
